DECLARATION OF JENS OLE SORENSEN REGARDING INVENTORSHIP

I, Jens Ole Sorensen, declare and state as follows:

1. I am not a joint inventor of subject matter claimed in the above-identified patent application.

2. The Declaration that I executed on September 29, 2004 in support of a Petition To Make Special Based Upon Applicant's Age was inadvertently executed and filed in error and without any deceptive intent.

3. Such Declaration was executed by me during a period when several other such Declarations were executed by me in support of Petitions To Make Special Based Upon Applicant's Age for several applications in which I was named as an inventor. I overlooked the fact that I was not named as an inventor for the present application because the inventor named in the present application, Paul Philip Brown, is the first named inventor in several other applications in which he and I are named as joint inventors.

4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated Feb. 18 - 2005

Jens Ole Sorensen
